

Netflix Data Cleaning and Preprocessing

Cleaned and transformed the Netflix Movies and TV Shows dataset using Python and Pandas. Performed missing value treatment, duplicate removal, text standardization, column renaming, date formatting, and data validation. Generated a cleaned dataset and automated cleaning report to ensure high-quality data for further analysis and visualization.

Technologies Used:

- Python
- Pandas
- NumPy
- Google Colab

Key Skills:

- Data Cleaning
- Data Preprocessing
- Data Validation
- Data Wrangling
- Exploratory Data Analysis
